

Yamada

FDA Compliant Pump Series

www.yamada-europe.com

Yamada FDA compliant pumps are specifically designed for Food, Pharmaceutical & Cosmetic industries where 3A or EHEDG + USDA standards are not required. Pumps include 316 Stainless Steel wetted components with Passivated satin finish, Epoxy coated air motor, Sanitary clamp fittings, and FDA compliant elastomers: Hytrel®, EPDM and PTFE.

FEATURES

- 316 stainless steel housings - passivated satin finish
- FDA compliant elastomers
- Sanitary clamp fittings
- Epoxy coated air motor
- Handles a wide variety of fluids with high solids content
- Self priming
- Ability to run dry without damage
- Portable
- No mechanical seals, couplings or motors
- Variable flow rate

SPECIFICATIONS

Pump model	Size	Diaphragm	Net weight	Liquid temp °C	Solid size
NDP-5FST-FDA	3/4"	PTFE	3,0 Kg	100	0,0 mm
